

S4 Inc. will be exhibiting at InfoTech 2008 set for October 21-23 at the Dayton Convention Center in Dayton, Ohio. This conference has been conducted annually by the Dayton-Wright Chapter of the Armed Forces Communications and Electronics Association (AFCEA) since 1991. It is AFCEA's premier information technology event in the Midwest, and offers top-level speakers, business/technical seminars, professional training sessions, and over 100 exhibiting companies.

The Trade Show hosts over 150 booths featuring industry and Government displays and demonstrations of state-of-the-art technologies and services. The InfoTech 2008 Conference theme is: "Enterprise Support to Our Warfighters". Over 2,500 industry, Government, and academic professionals interested and working in all dimensions of business and Defense information technologies attend.

S4 Inc. will be presenting their capabilities in Enterprise IT Support, Network and Information Security, Information Effects Operations, and Advanced Technical Applications in **Booth 425**. Key personnel will be available to discuss S4's support of the Air Force's emerging information technologies.
