S4 Inc. Wins a spot on \$12.1 billion ITES-3S contract with US Army

Bedford MA and Huntsville AL (Oct. 18, 2018) – S4 Inc., a leading enterprise information technology and cybersecurity solutions provider, has captured a prime position on the U.S. Army's Information Technology Enterprise Solutions - 3 Services (ITES-3S) Small Business contract vehicle. This indefinite-delivery/indefinite-quantity (IDIQ) contract is valued at \$12.1 billion over a nine-year period of performance ending on 23 September 2027.

ITES-3S is expected to serve as the primary source of information technology (IT)-related services for the US Army across the globe. Army does not charge other agencies, defense or civilian any fee for using ITES contract vehicle, which makes ITES-3S a contract of choice for most service providers. The services task areas include: Cybersecurity Services; Information Systems Security; Information Assurance; IT Services; Enterprise design, integration and consolidation; Network/Systems Operation and Maintenance; Telecommunications/Systems Operation and Maintenance; Business Process Reengineering; IT Supply Chain Management; and IT Education and Training.

“S4 Inc. has been supporting the Department of Defense (DoD) for many years,” said Chandu Shah, President and CEO of S4 Inc. “We are excited to expand our work with the US Army to include the needs of our soldiers worldwide.”

About S4 Inc.

Headquartered in Bedford MA, S4 Inc. is a small disadvantaged business (SDB) with offices in Colorado, Nebraska, Alabama, Maryland and Ohio that specializes in Enterprise Information Technology Services, Cybersecurity and Professional Services. Since 1999, S4 Inc. has delivered mission critical support in classified environments to Department of Defense (DoD), Department of Homeland Security (DHS) and US Government agencies and commands. We deliver leading edge solutions to both peacetime planners and war fighters across the United States.
