S4 Inc. captures spot on Navy's \$50 billion SeaPort-NxG IDIQ contract

Bedford MA (Dec. 10, 2018) – S4 Inc., a leading enterprise information technology and cybersecurity solutions provider, was awarded a U.S. Navy SeaPort Next Generation (SeaPort-NxG) multiple-award contract vehicle. This indefinite-delivery/indefinite-quantity (IDIQ) contract is valued at potential \$50 billion over a ten year period of performance.

The SeaPort-NxG vehicle will be used to provide support services and meet the requirements that are solicited by Department of the Navy activities. All work under the contracts will fall under two categories (engineering support services and program management support services), which are further divided into 23 functional areas. The government estimates approximately \$5,000,000,000 of services will be procured per year via orders issued under the SeaPort-NxG multiple award contracts.

S4 Inc. previously held a Seaport-e contract with the Navy, and is excited for the opportunity to continue helping our Navy customer achieve mission success under this new SeaPort-NxG contract.

About S4 Inc.

Headquartered in Bedford MA, S4 Inc. is a small disadvantaged business (SDB) specializing in Enterprise Information Technology Services, Cybersecurity and Professional Services. Since 1999, S4 Inc. has delivered mission critical support to Department of Defense (DoD), Department of Homeland Security (DHS) and US Government agencies and commands.
