

S4 Inc. Marks 25-Year Milestone

Bedford, MA April 12, 2024 — S4 Inc., a small business specializing in Enterprise Information Technology Solutions, Cybersecurity and Professional Services, proudly announces its 25-year anniversary. Founded in 1999 with just one full-time employee, S4 Inc. has grown into a multi-million dollar defense contractor serving Department of Defense and US Government customers nationwide. The company's focus is on delivering value added solutions to both peacetime planners and war fighters that enhance their capabilities and promote mission success.

"A lot has changed over the past two and a half decades, but one thing that has remained constant is our dedication to our customers and employees," remarked Patrick Brosnan, President and CFO of S4 Inc. "We owe our success to the remarkable agility and expertise of our team. I am proud of what the S4 Team has achieved thus far and am excited for the journey ahead."

According to data from the U.S. Bureau of Labor Statistics, only about 35 percent of small businesses survive over 10 years, never mind a quarter century. S4 recognizes that we could not have achieved this milestone without the support of our customers, partners, and employees. We thank you all for your support.
